We want you and your team to be confident and comfortable with your new technology.
With our 60 Day Satisfaction Guarantee, we stand by you, and we stand behind the quality of our products.

GENDEX

DEXIS™

For over 10 years, Gendex GXS-700 sensors were well received by clinicians across the globe for:

- Ease of Use
- Image Quality
- Open Software Integration
- Affordable Price

We surveyed Gendex customers** and you asked for greater durability. Hence, why DEXIS IXS was born.

DEXIS IXS emerges with everything you know and love about Gendex, plus we've added more durability:

- 3x's more resistant to damage or functional failure*
- Handles double the biteforce without cosmetic damage*
- The cable is able to withstand 22lbs of force without functional failure and is designed to never need replacing*

We've also added greater automation:

- Direct-download calibration files
- Automated software updates
- Proactive sensor health monitoring

DEXIS IXS is the next evolution of DEXIS sensors.

Call 1-888-88-DEXIS or visit dexis.com for more information on DEXIS IXS and special pricing promotions.
